

“[NiKayo] was fully engaged, disciplined and devoted to influence everyone around her to the higher level she could reach through her knowledge and experiences.”

-Khawla Tarish, Head of Strategic Partnerships, Social Care & Minors Affairs Foundation, Abu Dhabi

The Difference Maker

NiKayo D. Coble, M.Ed is an international licensed educator, inspirational speaker, and author. She earned a Bachelor of Science from Spelman College and a Master of Education from Georgia State University. She has experience in the banking, non-profit, and education industries.

NiKayo founded and oversees Mary’s Helm, LLC, an education consultancy, based in the United States of America. She also serves as an independent education consultant in the United Arab Emirates.

Ms. Coble merges elementary teaching principles with strong business acumen. She mixes modern day technology and interests with long standing research based truths and balances her understanding of western and middle Eastern culture. These unique blends are what allow her to stand out and make a difference in her services and client impact.

BRIDGING EDUCATION GAPS
SHAPING A POSITIVE FUTURE

Service Offerings

Professional Development Services: Do you require guidance to develop professional skills that will prepare you for today and tomorrow? These services offer a wide range of professional development workshops and curriculum support that have been used with corporate, education, and non-profit businesses as well as individuals seeking professional growth.

Family Support Services: In a fast paced and technologically advanced society navigating the demands of parenting with an ever-changing education system is challenging. This service trains and supports parents and child caregivers.

Reading Services: Whether an individual is a non-reader, struggling reader, English language learner, or simply looking to improve their English reading skills help is available. This service is designed to move individuals from where they are to a confident reading level.

Consulting Services: Everyone occasionally needs the 1:1 support and guidance of a professional to help them realize their fullest potential. Whether in person or online an individual's unique needs are assessed and personalized solutions that meet their needs are developed.

Pricing

Stand alone and package pricing rates for consulting, reading & writing services, and family support services are posted and available on the website: www.nikayocoble.com

Professional development service price ranges vary depending on request, audience size, location, and duration. Please reach out for additional information and to receive a quote. info@nikayocoble.com

- Producer of SHAPE motivational content across various social media platforms.
- Recognized school inspector by the New England Associate of Schools & Colleagues (NEASC)

BRIDGING EDUCATION GAPS. SHAPING A POSITIVE FUTURE.

Education has a huge impact on the lives and well-being of individuals, businesses, and communities. Despite our best efforts there are both known and unknown education gaps that inhibit people from realizing their fullest potential. As an educator, leader, and life-long learner myself, with all services it is my goal to partner with others in an effort to help them to recognize and address any knowledge gaps in order to bring them to a place of self-sufficiency. I do this by using a holistic approach to providing appropriate training, resources, and support that resolve any current obstacles that are hindering personal and professional success.

If a person or company is ready to move forward to the next level of excellence in their life then I'm here willing, ready, and able to help you get there. Let's bridge any education gaps and start shaping a positive future. I look forward to working with you!

Sincerely,

NiKayo D. Coble, M.Ed
